

**Jennifer Noble - Board Member**

I have been involved with DAF since 2010 as a volunteer, secretary and trustee. I have lived and worked locally since 1992.

Working in Special Education in Manchester, I have a particular interest and experience of delivering inclusion and responses to special needs across all areas; e.g. race, sexuality, gender, disability.

I am interested and experienced in the role of the arts in helping meeting mental health challenges, and would wish to promote this within the DAF framework.

I have qualifications in jewellery making and silver-smithing and have links to the various artistic networks in these areas.
